SoftSuitCase is a complete front-, middle- and back-office system for the travel industry.

SoftSuitCase is integral to the airlines' CRS and Pro7 version for most major ERP systems.

The chart at left, in showing the contents in the different versions of SoftSuitCase

SoftSuitCase LITE and PRO SoftSuitCase both can be upgraded to higher versions without data loss, and downgraded to SoftSuitCase ONE

SoftSuitCase Pro7 and SoftSuitCase Lite is with its own database, and must be installed on PC's

SoftSuitCase ONE is WEB based, and requires no installation and setup.
